Dear Fred

Am sending this in the hopes that you will find time to let me have a QSL sometime. My TX is CO/PA and runs at Thirty watts only into a length of 22 sWG. (68 feet) slung from a bedroom window 15 feet high and sloping to the North down to 8 feet. On the Rx. use 66 feet of VIR. coiled around a dowel Rod ½" diam. to O/A length of 4 feet + standing vertical at ground level. Nice to have had the QSO with you Fred & hope we shall meet again sometime. Thanks again for PB QSO. 73

Best
